

Weatherford®

Water Jetting

Delivering Solutions with Water Jetting Techniques

Pipeline & Specialty Services

Weatherford's Pipeline & Specialty Services is one of the largest operators of water jetting equipment in the global oil and gas, petrochemical and marine industries.

With a fleet of more than 60 high-pressure (HP) and ultrahigh-pressure (UHP) jetting units ranging from 3,000 PSI to 35,000 PSI, electrically or diesel-driven, Rigsafe or Zoned (including Zone I and II units to Norsok Z-015 standard), we can provide solutions to the most demanding problems in the industry.

Applications

In addition to supplying equipment for rental, we can provide the complete service package from project management to full execution of works including:

- Online vessel and separator cleaning
- UHP surface preparation of paint, bitumen, concrete, fireproofing, plastic and rubber
- UHP cold cutting of concrete and steel structures
- Concrete hydrodemolition
- Retrojetting of small- and large-diameter pipework
- UHP remote robotic surface preparation of ship hulls, platform jackets and oil storage tanks
- Ship riding crews for UHP surface preparation and HP operations
- Tubular descaling

Our client-focused operators and engineers are highly trained and fully experienced with offshore and onshore locations in a global market.

We support the global demand for our services from our newly purpose-built facility in Aberdeen, our facility in Norway, and remote operations in strategic regions.

Our full range of accessories and tooling for use with HP and UHP equipment complements our modern fleet.
