

COMPLETE™

POST-TD OPTIMIZED SOLUTIONS

COMPLETE SOLUTIONS. TOTAL VALUE.

In high-risk and high-cost offshore environments, operators face the challenge of doing more with less. Because of that, you need a lean yet versatile solution after reaching total depth (TD) to streamline operations, improve operational efficiency, and decrease costs from loadout to well completions.

Weatherford COMPLETE post-TD optimized solutions deliver total value by combining post-drilling services, including liner hangers, wellbore cleanup, tubular running, completions, fishing, slickline, and well services. Unlike typical bundling offers, COMPLETE solutions increase value and cost savings by providing cross-functional teams that think like the operator. This approach improves efficiency and reduces interface costs by up to 40 percent.

We developed COMPLETE solutions using our completing the well in practice (CWIP) methodology. CWIP bridges the gap between completing the well on paper (CWOP) and execution. Using CWIP, we deliver a focused team, drive consistency from planning to well delivery, and enable repeatability across locations. This methodology combines the quality, service, and value you expect with our relentless focus on solving the challenges of our customers.

REDUCES

LOGISTICAL COSTS BY
40%

OVERALL POTENTIAL RISK BY
50%

POST-TD OPEX COSTS BY
30%

THE COMPLETE ADVANTAGE

HIT YOUR **BOTTOM LINE** BY LOWERING CONTRACTOR SERVICE COSTS FOR POST-TD OPERATIONS BY **50 PERCENT**.

TACKLE THE **RED ZONE** BY **REDUCING PERSONNEL REQUIREMENTS** ON THE RIG FLOOR DURING OPERATIONS.

DELIVER THE WELL BY **BRIDGING THE GAP** BETWEEN **CWOP AND CWIP**.

COMPLETE SOLUTIONS REDUCE THE TOTAL COST OF OWNERSHIP*

Our game-changing CWIP methodology increases value for customers around the world. COMPLETE solutions have been deployed in deepwater projects for market-leading IOCs across West Africa, Norway, and Australasia, and have significantly impacted their total cost of ownership.

IMPROVE LOGISTICS, MITIGATE RISKS, AND REDUCE COSTS

COMPLETE solutions deliver value by reducing equipment transport, personnel requirements during rig-floor operations, and overall post-drilling OPEX costs.

IMPROVE LOGISTICS TO REDUCE COSTS

↓ **44%**

reduction in personnel and equipment transport

↓ **50%**

reduction in subsistence costs

REDUCE LIFTS AND PERSONNEL ON BOARD TO ENHANCE SAFETY

↓ **53%**

fewer personnel

↓ **36%**

fewer lifts

INCREASE OPERATIONAL EFFICIENCIES TO REDUCE POST-TD OPEX COSTS

↓ **30%**

reduction in carbon footprint

↑ **30%**

increase in operational efficiency

ASSESS

We assess the operation, then develop procedures and contingency plans.

DELIVER

We deliver a consistent operation with increased efficiency and improved service quality.

REPEAT

We repeat these actions across all of your operations to bring greater value, no matter where you are.
