

# Weatherford®

## REAL RESULTS

### QuickCut™ System Takes Weatherford to New Depths with Its Smallest Whipstock System

#### Objectives

- Complete a casing exit in 5-in., 18-lb/ft liner in a single trip.
- Perform a low-side casing exit at a 30° inclination.
- Reduce installation time.

#### Results

- A 3 1/2-in. OD *QuickCut* system was modified to accommodate 5-in., 18-lb/ft casing.
- The whipstock was run and oriented 138 RHS (right of high side), and the window was milled in one trip.
- Milling was completed in 3 hr, with both mills in gauge.

#### Value to Client

- A full-gauge window was achieved in one run, minimizing costly trip time.

#### Client

Canadian independent

#### Formation

Beaver Hill Lake (Shale)

#### Depth

15,502 (4,725 m)

#### Well Type

Oil and gas re-entry

#### Liner

5 in., 18 lb/ft
