

BlackCat™ Retrieving Tool

Weatherford's *BlackCat* retrieving tool is designed to retrieve the *BlackCat* retrievable sealbore packer.

Features, Advantages and Benefits

- The *BlackCat* retrieving tool provides an internal bore to allowing washing of debris to aid in retrieval of the packer.
- An emergency release allows the retrieval tool to easily disconnect from the packer should the packer be stuck and require fishing.

Specifications

Size (in./mm)	Packer Sealbore (in./mm)	Maximum OD (in./mm)	Minimum ID (in./mm)	Thread Connection (Box Up)	Product Number
