NEWS RELEASE

Weatherford to Exhibit Drilling, Well Construction, Completion and Production Innovations at SPE Offshore Europe 2019

Life-of-Well Technologies Enhance Customer Capabilities

BAAR, SWITZERLAND, September 03, 2019 -- Weatherford International plc (OTC-PINK: WFTIQ) (the “Company” or “Weatherford”) today announced it will showcase its life-of-well innovations at Offshore Europe 2019, Booth 3E 30, Aberdeen, Scotland from September 3-6.

Offshore Europe 2019 will serve as a platform to demonstrate each of the Company’s core business segments, including Drilling, Well Construction, Completions and Production. These four areas will feature the following powerful technologies:

- **Vero® automated connection integrity** replaces human judgment with artificial intelligence.
- **TRIP™ single-trip completion system** sets a new precedent in deepwater completions.
- **ForeSite® production optimization platform** brings Production 4.0 capabilities to the oil field.
- **Magnus® rotary steerable system** delivers high-performance, precise directional control.
- **Victus™ intelligent MPD** achieves unmatched safety and cost savings through an end-to-end MPD solution.

Weatherford CEO Mark A. McCollum commented, “Customer needs drive the investments we make in new performance-enhancing technologies. The Magnus push-the-bit rotary steerable system is our response to a cost-saving tool that functions in the world’s most challenging environments. Managed pressure drilling, artificial lift and digitalization are other areas where we have made significant investments. The possibilities are exponential in the digital space for our industry, and we’re excited to showcase our leadership in this area during Offshore Europe.”
