Weatherford To Present New Oilfield Technologies at ADIPEC 2019

***CEO Will Discuss Digital Transformation and Strategic Partnerships;
Product Line Presidents to Address Technical Sessions on Formation Evaluation,
Drilling, Completion, and Production***

HOUSTON, November 05, 2019 - Weatherford International plc (OTC-PINK:WFTIQ) is bringing its best-in-market oilfield technologies and industry-leading vision to the 2019 Abu Dhabi International Petroleum Exhibition and Conference (ADIPEC), from November 11 to 14, 2019.

On Monday, November 11 at Noon, Weatherford will unveil the first-ever flow-measurement solution driven by Production 4.0™ Intelligence in Hall 8 at Stand #8210. The technology gives operators the ability to reduce both capital and operating expenses while increasing well-test frequency and accuracy.

At 1 p.m. on Tuesday, November 12 in Conference Hall B, Weatherford President and CEO Mark A. McCollum will join a panel to discuss why digital transformation is broader than just technology and why it requires strong strategic partnerships, access to specialist skillsets, agile teaming, and a fail-fast culture.

Three Weatherford product line presidents will discuss technology advances in formation evaluation, drilling, completion, and production at the ADIPEC technical conference:

- Mark Hopmann, President of Completion: “Unconventional: The Next Step Change” (Tuesday, November 12, 11:30 a.m., Conference Hall A)
- Kyle Chapman, President of Production: “Creating Industry Partnerships to Maximize Operational and Commercial Value” (Wednesday, November 13, 9:30 a.m., Conference Hall A)
- Etienne Roux, President of Drilling and Formation Evaluation: “New Business Models for Oil and Gas: Integrating Operators and Service Providers” (Wednesday, November 13, 11:30 a.m., Conference Hall A)

Weatherford will also address the challenges and opportunities in formation evaluation, drilling, completion, production, and intervention in a series of daily 15-minute in-booth technical presentations:

- 11 a.m.: Integrate Drilling Technologies to Safely Reach TD and Maximize Reservoir Exposure

- 11:30 a.m.: Never Sidetrack Off a Cement Plug Again Using a Single-Trip Openhole Cement and Sidetrack System
- 12 p.m.: Be True to Your High-Flow Assets
- 12:30 p.m.: Transform Downhole Uncertainty into Informed Decisions
- 13:00 p.m.: Take Charge of Pressure Control
- 13:30 p.m.: Withstand the Test of Time with an Advanced P&A Service
- 14:00 p.m.: Install the Upper and Lower Completion in Just One Trip
- 14:30 p.m.: Maximize Production Performance Asset-Wide
- 15:00 p.m.: Rejuvenating Mature Fields
- 16:00 p.m.: Expedite Liner Installation, Establish Long-Term Integrity, and Withstand High Pressures
- 16:30 p.m.: V0-Rated Cementer Significantly Reduces Costs in the Arabian Gulf
